40 GERIATRIC NURSING

Vol. 41, No. 5 • September/October 2020 • www.gnjournal.com

Editor: Barbara Resnick, PhD, CRNP, FAAN, FAANP

IN THIS ISSUE

- The Association of Pain Locus of Control with Pain Outcomes
- Frailty is Associated with Pain and Cognitive Function in Post-Acute Care Settings
- Prevention and Reduction of Involuntary Treatment At Home
- Behavioural Activation for Depression of Family Caregivers
- Transition of Homecare Recipients to Nursing Homes
- Factors Associated with Food Intake, Nutritional Status, and Function
- Planned and Actual Nursing Care in Long-Term Care
- Risk for Falls in PACE Participants
- Does 20-Minute Rounding Reduce Falls?
- Family Caregiver Perceptions of End of Life
- Effectiveness of Dance in the Health of Adults
- Health literacy, Social Support, and Care Ability for Caregivers
- Promoting Mobility among Hospitalised Older Adults
- Social Media Usage
- The Moderating Role of Resilience
- Effect of Function-Focused Care on Long-Term Care Workers
- Factors Associated with Signs of Aspiration
- Future Care Moderates Loneliness and Depression
