## EDITORIAL

- 317 **Uncertainty in Maternity Care**  
The Editor in Chief reflects on uncertainty in maternity care.  
*Joyce K. Edmonds*

## COLUMNS

- INTERPRETATIONS OF CURRENT MATERNAL AND NEONATAL RESEARCH TRIALS**
- 320 **Noninvasive Prenatal Test Results Indicative of Maternal Malignancies: A Nationwide Genetic and Clinical Follow-Up Study**  
The author describes the results and implications of a study on noninvasive prenatal test results that indicate maternal malignancies.  
*Ellise D. Adams*
- CURRENT EVIDENCE TO GUIDE PRACTICE, POLICY, AND RESEARCH**
- 324 **Female Genital Mutilation/Cutting Related to Reproductive Health Needs During Pregnancy and Birth**  
The author provides current evidence on female genital mutilation/cutting in the United States and women's reproductive health needs during pregnancy and birth.  
*Summer Sherburne Hawkins*

## BRIEF REPORT

- 338 **Pilot Study of the FitMoms2B Physical Activity Promotion Program Among Black Women With High-Risk Pregnancies**  
Promotion of physical activity with coaching sessions, workout partner support, and Fitbit use was feasible and acceptable to Black participants during high-risk pregnancy.  
*Jean W. Davis, Amanda de la Serna, Camilla Carey, Felisha Ally, and Carmen Giurgescu*

## CRITICAL COMMENTARY

- 345 **Reproductive Justice as an Alternative to the Pregnancy Planning Paradigm for Teens**  
The authors critique the pregnancy planning paradigm as applied to teens and argue for replacing it with the reproductive justice framework.  
*Lee SmithBattle and Louise H. Flick*

## RESEARCH

- 355 **Use of Behavioral Health Treatment Among Parenting Women With Opioid Use Disorder in the United States**  
A large proportion of respondents with opioid use disorder and co-occurring major depressive episode did not receive optimal treatment and reported barriers to treatment.  
*Stacey E. Iobst, Priscilla Novak, and Mir M. Ali*
- 368 **Mixed-Methods Assessment of Maternal Anxiety During the First 8 Weeks After Birth**  
Daily experiences and perspectives after birth differ between women with generalized and postpartum-specific anxiety.  
*Mary G. Hoberg, Jill R. Demirci, Susan M. Sereika, Michele D. Levine, and Annette DeVito Dabbs*
- 383 **Support Needs of Labor and Delivery Nurses After Traumatic Experiences**  
Traumatic events experienced by participants were associated with absenteeism and turnover; organizational support did not meet their needs.  
*Catherine Crawford and Jessica R. Williams*
- 397 **Sex Workers' Experiences of Screening for Intimate Partner Violence**  
Women who sell sex wanted health care providers to conduct intimate partner violence screening face-to-face and to show a genuine interest in their experiences.  
*Jessica L. Zemplak, Kamila A. Alexander, Deborah Wilson, Randi Singer, Joni S. Williams, and Susan G. Sherman*

Continued

406 **Sleep and Mood Among Women With Histories of Depression When They Used a Responsive Infant Bassinet During the COVID-19 Pandemic**

A responsive bassinet may offer women at high risk for postpartum depression improved sleep and instrumental support.

*Patricia Gellasch, Maria Torraca, and Michele L. Okun*

416 **Relationships Among Pelvic Congestion Syndrome Pain, Daily Activities, and Quality of Life**

Pelvic congestion syndrome is a misunderstood cause of chronic pelvic pain in women and negatively affects their quality of life.

*Sarah E. Patel and Steven R. Chesnut*

427 **Relationship Between Maternal Emotional Distress and Early Dyadic Interactions During Hospitalization of Preterm Infants in Malawi**

Psychological care in the postpartum period is necessary to improve maternal mental health and mother–infant relationships.

*Kaboni Whitney Gondwe, Qing Yang, Madalitso Khwepeya, Roselyn Chipojola, Yamikani Nkhoma-Mussa, and Debra Brandon*

**PRINCIPLES & PRACTICE**

438 **Educating Pregnant Women About the Dangers of Extreme Heat and Air Pollution**

Health care professionals should be ready to educate patients about the adverse effects of climate change on pregnancy outcomes and strategies to reduce risks associated with extreme heat and air pollution.

*Kathryn Atkin, Georgina Christopoulos, Rachel Turk, Jean M. Bernhardt, and Katherine Simmonds*
