JOGNN.org

EDITORIALS

581 **Perspectives on Positionality Statements in Scholarly Discourse**

JOGNN's Associate Editor, Qualitative Methods, addresses the issues surrounding the use of positionality statements in published articles.

Cheryl Tatano Beck

585 **Supporting Authors for Whom English Is an Additional Language to Promote Diversity Inclusion and Equity in Nursing Scholarship**

Fellows in the 2024 joint JOGNN and NWH editorial fellowship address the challenges faced by authors for whom English is an additional language and offer practical recommendations for those authors and reviewers.

Forgive Avorgbedor, Jamille Nagtalon-Ramos, Abby Britt, Natasha Nurse-Clarke, and Deepika Goyal

COLUMNS

INTERPRETATIONS OF CURRENT MATERNAL AND NEONATAL RESEARCH TRIALS

590 **Once Daily Oral Relugolix Combination Therapy Versus Placebo in Patients With Endometriosis-Associated Pain: Two Replicate Phase 3, Randomised, Double-Blind, Studies (SPIRIT 1 and 2)**

The author describes the results of a study to examine the effect of three treatment regimens on pain associated with endometriosis.

Ellise D. Adams

CURRENT EVIDENCE TO GUIDE PRACTICE, POLICY, AND RESEARCH

594 **Long-term Implications and Barriers to Use of the Hepatitis B Vaccine at Birth**

The author provides current evidence on the hepatitis B birth dose, long-term implications for vaccine completion, and barriers to vaccine uptake.

Summer Sherburne Hawkins

RESEARCH

607 **Pilot Randomized Controlled Trial of an Intervention to Promote HPV Uptake Among Young Women Who Attend Subsidized Clinics**

Step Up to Prevention has the potential to mitigate disparities in HPV vaccination rates by enhancing HPV vaccine uptake among minority and low-income young women.

Su Kyung Kim, Melanie Kornides, Jesse Chittams, Roshani Waas, Rebecca Duncan, and Anne M. Teitelman

618 **Timing of Catheter Removal and Effect on Urinary Retention After Cesarean Birth**

Catheter removal earlier than 12 hours after cesarean resulted in a significant increase in urinary retention with the use of morphine sulfate anesthesia.

Corie Hoskins, Amy Dempsey, Karen Kaley, and Lina Brou

625 **Factors Associated With Palliative Care Birth Planning at a Pediatric Hospital**

In prenatal palliative care birth planning for pregnancies affected by serious conditions, goals for care were consistent across demographic groups, but offerings may be inequitable.

Gwendolyn J. Richner, Catherine A. Kelly-Langen, Stephanie S. Allen, Miraiides F. Brown, Daniel H. Grosseohme, and Sarah Frieber

635 **Latina Women's Perinatal Experiences and Perspectives Around Discrimination, Anti-immigrant Policies, and Community Violence**

Responsive and race-conscious perinatal health care and policy must account for the effect of the current sociopolitical environment on the well-being of Latina women.

Victoria F. Keeton, Daisy Leon-Martinez, Diana Ceballos Robles, Erica Martinez, Lauren Lessard, Mary A. Garza, Miriam Kuppermann, and Brittany D. Chambers Butcher

Continued

648 **Parents' Experiences With Infant Pain Management in the NICU**

Parents' competence and confidence in managing their infants' pain in the NICU can be enhanced with support from health care providers.

Carol McNair, Mary McAllister, Linda S. Franck, Bonnie Stevens, and Anna Taddio

658 **Associations Among Racial Discrimination, Perceived Stress, and Birth Satisfaction in Black Women in the Postpartum Period**

Racial discrimination was related to perceived stress and perceived stress was related to birth satisfaction among Black women in the postpartum period.

Amanda de la Serna, Rui Xie, Jean W. Davis, Susan Quelly, Dawn P. Misra, and Carmen Giurgescu

669 **Novel, Group-Based Trajectories of Labor Progress in Nulliparous Women With Low-Risk Pregnancies**

Gestational age may help predict the trajectory of labor.

Lisa M. Wesolowski, Janet Catov, Jill R. Demirci, Dianxu Ren, and Yvette P. Conley

HEALTH CARE IMPROVEMENT AND EVALUATION

679 **Planning, Implementation, and Evaluation of a Postpartum Nurse Home Visit Service to Improve Health Equity**

We describe organizational features and an implementation blueprint for the successful establishment of a postpartum nurse home visit service to improve health equity.

Jennifer B. Rousseau, Yasmin Cavenagh, and Kathryn Kaintz Bender
