of Substance Abuse and
Depression: Is it Appropriate?
Robert H. Howland

Original Articles

- 33** **Clinical Use of an Autovideography
Intervention to Support Recovery in
Individuals with Severe Mental Illness**
Mental health consumers used video cameras to
document their recovery, providing opportunities for
reciprocity, self-reflection, and advocacy.
*Sheila Linz, Nancy P. Hanrahan, Marissa DeCesaris,
Ryan Petros, and Phyllis Solomon*
- 41** **Creative Strategies to Enhance
Students' Classroom Learning in
Mental Health**
Interactive teaching strategies were found to positively
influence attitudes, reduce stigma, foster understanding,
and provide value to a sample of nursing students.
Sally Lehr and Alison Schlenger
- 49** **Helping War Veterans with
Posttraumatic Stress Disorder:
Incarcerated Individuals' Role in
Therapeutic Animal Programs**
Prison-based animal programs founded on the
principles of animal therapy and healing powers of
animals are helping provide support for Veterans.
Gennifer Furst
