Agonist Antipsychotic Drug
Robert H. Howland

Original Articles

- 30** **Heroin Use**
Psychiatric providers must be informed and educated in the treatment of the physical and psychological sequelae of this rising epidemic.
Deborah A. Salani, Martin Zdanowicz, and Laly Joseph
- 38** **Working With Children in Families With Parental Substance Abuse: Nurses' Experiences and Complexity in Relationships**
Preventive work and intervention in dysfunctional families may have direct consequences on children's present and future development and well-being.
Rebecca Wallström, Renée Ståleborg Persson, and Martin Salzmänn-Erikson
- 45** **Effect of Short-Term Separation on the Behavioral Health of Military Wives**
A 3-month separation for scheduled training resulted in no change in depression, resiliency, stress, and relationship satisfaction scores for military wives, possibly due to frequency of contact.
Pedro N. Oblea, Jr., Terry A. Badger, and Denise L. Hopkins-Chadwick
