## Original Articles

- 31** **Managing Workplace Violence With  
Evidence-Based Interventions:  
A Literature Review**  
Staff, environmental, and patient risk factors were  
identified as the major precursors of workplace  
violence initiated by patients.  
*Angel Johann Solorzano Martinez*
- 37** **Effect of Complex Working Conditions  
on Nurses Who Exert Coercive  
Measures in Forensic Psychiatric Care**  
Nurses employed in these settings are affected both  
professionally and emotionally, constantly reflecting on  
their duties and need to justify their actions.  
*Niclas Gustafsson and Martin Salzmann-Erikson*
- 44** **Effect of Illness Representations and  
Catastrophizing on Quality of Life in  
Adults With Irritable Bowel Syndrome**  
Integrating illness beliefs and coping style into the  
management of this disorder may improve well-being  
and quality of life.  
*LeeAnne B. Sherwin, Emily Leary, and Wendy A. Henderson*
